"Whether your customers are looking for home networking solutions that serve their entertainment, information, security or home automation needs—Homebrella's products will serve them today and well into the future. Multimedia shall be woven into the 'fabric' of the homes you design, creating an enhanced living environment that is exciting, convenient, secure, and user friendly for everyone to enjoy."

Kevin Orr, President

**Whether you're design or building...** a new home, or renovating an existing one...you can use an intelligent home network to promote your project to your homeowners as being more convenient, comfortable and secure.

**Your customers won't wait.** They are looking for home networking solutions that serve their entertainment, information, security or home automation needs.

*Homebuyers that experience the Intelligent Home system in a model feel the emotional response critical in the sales process.*

They want immediate Internet access through broadband connections. Interactive entertainment, security and home automation systems. Instant access to 'must have' technology.

They may not be specifying it and you may not be providing for it, but that is what they need.

## We deliver...

- ❖ Latest technology
- ❖ Maximum connectivity
- ❖ Maximum entertainment options
- ❖ Home automation ready

**Why be wired?** Gone are the days of having audio/video, cable, satellite and Internet services limited to one or two locations within a home.

Traditional wiring delivers the bare minimum of control and communication, making some of your services difficult, impossibly slow or even impossible.

Take advantage of the consolidation of hardware, components and point-of-entry services.

**Simply put,** we will help you create and promote an exciting environment that is easy for the whole family to use. It works when and how they want it to, under their specific control.

We create a local area network (LAN) throughout the entire house. For the first time, you can plug all your information, entertainment, electronics and security needs in one multifunctional outlet to each and every room in your home.

**Industry-leading Warranty** To start, your residential structured wiring network comes with 15-year performance guarantee on the cable and connector infrastructure. This warranty is extended to the original purchaser and any succeeding owner for the 15-year warranty period.

**Beyond Structured Cabling** Add music, voice and movies to homes that add real value to a consumer's home and lifestyle. Consumers want new technology with a friendly interface. They want to maximize the products they already own, such as stereos, telephones and televisions, with the ability to customize and upgrade in the future.

**Call for an introductory consultation** to learn more about the advantages of building homes that

Put simply, homes built with an Intelligent Home System **sell better and sell faster**.

Work with Homebrella to create attractive, revenue generating Design Centre options.

“...all of our systems are totally upgradeable as the customers needs change in the future, this flexible approach makes it easy for builders to cater to homeowners' individual needs.”

***Building for the future and addressing the needs of today.***
